Invest In Roads, Parks and Recreation Programming

As your Mayor, I believe that the best investment that we can make is in our built infrastructure which provides benefits for both current and future residents as well as serving as the foundation for economic activity across the municipality. Whether it is our roads, parks or other Township assets, we must take a measured and practical approach to asset management and long-term planning to ensure that we are leaving the Township in the best possible position for the future.

Strategic Asset Management

As your Mayor, I will work with Council to prioritize asset management for all Township assets (linear assets, buildings, vehicles, equipment) and return to annual reviews of long-term capital plans alongside the annual Operating and Capital Budget process, in addition to completing the existing mandatory Asset Management Policy reviews in accordance with provincial regulations.

Get Roads Built Well

As your Mayor, I will work with Council to prioritize road design and construction practices that build strong roadways with extended paved shoulders to allow for safer travel for pedestrians and cyclists. In addition, Council must ensure that road construction projects are completed well and any deficiencies are remedied with appropriate communication with impacted residents.

Invest in Parks, Trails and Green Spaces

As your Mayor, I will work with Council, community groups and local residents to develop community priorities for the enhancement of our parks, trails and open spaces with an eye to providing enhanced recreational offerings for residents in all corners of our community.

Better Utilizing Community Spaces

As your Mayor, I will work with Council and staff to find ways to make better use of the Township's community spaces, particularly the John A. Gillies Recreation Centre and Murray Yantha Community Centre.

Explore Recreational Partnerships

As your Mayor, I will work with Council to open dialogue with neighbouring municipalities (Arnprior, Renfrew, Mississippi Mills, Greater Madawaska, Horton, etc.) and explore opportunities to offer joint recreation programs and activities for our collective residents.
